

Recruit & Hire

Southwestern Payroll powered by Cloud is proud to offer an automated end-to-end applicant tracking system that is easy to configure and use. Create jobs, tasks, and templates that match your organization's unique recruiting needs.

Key Features

Dashboard

- Access your active job posts and check on their statuses and updates for real time engagement and visibility.
- Search for applicants, posts, openings, schedule interviews and create offers all from the central dashboard.

Enhanced Candidate Experience

- Candidates navigate through the application processes, interview scheduling, job offers, and documentation in one online portal.
- Easily manage communication with the candidates throughout the entire recruiting process – reject, approve, offer and hire.

Screening Questionnaires & Question Bank

- Choose from predefined questions and or create your own questions.
- Create and apply unique screen questionnaires for general or specific roles.

Unlimited Job Posts

- Create and publish any amount of job postings to the Career Center.

Cloud-Based

- Southwestern Payroll powered by Cloud's payroll and HR technology is 100% cloud-based allowing you to access information when you need it from anywhere in the world with internet access.

Dedicated Support

- Southwestern Payroll powered by Cloud's technology comes with system and service support – ready when you need it.
