

Benefit Administration

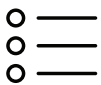

Southwestern Payroll powered by Cloud understands that Benefit Administration is a tedious process filled with multiple data points, paperwork, and signatures. From onboarding to open enrollment, companies are tasked with the tireless process of offering, updating, and maintaining their employee's benefits. Southwestern Payroll powered by Cloud's Benefit Management module is designed to save your company countless hours and piles of paperwork by delivering an easy and efficient online portal.

Key Features

Dashboard

- Easily create plans and policies with unlimited details for your organization.
- Offer employee, employee plus one, and employee plus family coverage types.
- Apply free form or age banded monthly premiums.
- Create contributions that are a fixed amount or a percentage (ER and EE).
- Create and apply waiting rules.
- Allow beneficiaries and dependent elections.
- Set up and monitor Open Enrollment.

Electronic Enrollment

- Remove the paperwork trail, allow employees to elect benefits in one trackable place.
- Selection are stored in the Benefit Administration Portal for management and available for the employee in their own portal for future use.

Carrier Connection

- Utilize the carrier connection with EBenefits Network (eBN).
- Share insurance enrollment, payroll contributions, premium and deduction management, billing and reconciliations, and COBRA processing.
- Carrier Connection also comes with a claims integration.

Dedicated Support

- Southwestern Payroll powered by Cloud's technology comes with system and service support – ready when you need it.

Enjoy the benefits with Southwestern Payroll.
