

New employers are required to register with State Withholding Taxing Authorities and Unemployment Insurance Divisions in order to remit payroll taxes and submit employer tax returns to a state. Below are the links for each state to complete the necessary registration(s). Some states offer combined registration for both withholding and unemployment taxes. Those states are indicated below. For those few states that do not have an online option, we noted "paper only". Note: If you have employees working in multiple states, you must register with each state separately.

STEP ONE – Obtain Account Numbers

- Click on the states below in which you need to register.
- Create a User ID and Password, and please make note of them.
- Where possible, please list CloudPayroll as your Third Party Administrator (TPA). If you need an Agent number or other information, please contact your Payroll Service Provider.
- Please complete and forward the appropriate POAs to your Payroll Service Provider.

STEP TWO - Obtain Online Access

- If you register on-line, you should receive your account number within a 24 - 48 hour window.
- Please forward any letters, notices, e-mails or other communication that you receive from the states to your Payroll Service Provider.
- Your Payroll Service Provider needs the following information to access on-line filing and payment:
 - Access Codes, PIN number, Account numbers, BEN numbers, etc.
